# flutter\_pdfview

Native PDF View for iOS and Android

## Use this package as a library

### 1. Depend on it

Add this to your package's pubspec.yaml file:

```
dependencies:  
  flutter_pdfview: 1.3.2
```

### 2. Install it

You can install packages from the command line:

with Flutter:

```
$ flutter packages get
```

Alternatively, your editor might support pub get or flutter packages get . Check the docs for your editor to learn more.

### 3. Import it

This site uses cookies from Google to deliver and enhance the quality of its services and to analyze traffic.

preventLinkNavigation	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	false
-----------------------	-------------------------------------	-------------------------------------	-------

backgroundColor	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	null
-----------------	-------------------------------------	-------------------------------------	------

## Controller Options

Name	Description	Parameters	Return
getPageIndex	Get total page count	-	Future<int>
getCurrentPage	Get current page	-	Future<int>
setPage	Go to/Set page	int page	Future<bool>

## Example

```
PDFView(  
  filePath: path,  
  enableSwipe: true,  
  swipeHorizontal: true,  
  autoSpacing: false,  
  pageFling: false,  
  backgroundColor: Colors.grey,  
  onRender: (_pages) {  
    setState(() {  
      pages = _pages;  
      isReady = true;  
    });  
  },  
  onError: (error) {  
    print(error.toString());  
  },  
  onPageError: (page, error) {  
    print('$page: ${error.toString()}');  
  },
```

# Dependencies

## Android

[AndroidPdfViewer](#)

## iOS (only support > 11.0)

[PDFKit](#)

# Future plans

- Replace barteksc/AndroidPdfViewer with MuPDF or Android Native PDF Renderer.
- Improve documentation
- Support other platforms such as MacOS, Windows, Linux and Web
- Add search functionality
- Improve performance on zooming, page changing
- Improve image quality
- Write more test

# Support
